

ALIEN ANARCHISTS MUST LEAVE COUNTRY

United States Government Taking Active Measures to Suppress Further Outrageous-Sytematic Campaign Against Aliens Is Initiated.

Washington, D.C., Mar. 4.—The secretary of commerce and labor today issued a series of immigration and immigrant inspectors in charge, directing that they should make a systematic survey of their respective jurisdictions, with a view to securing the co-operation of the police and other federal agencies to rid the country of alien anarchists and criminals, calling within the limits of the department.

New York to Enforce Order.

New York, Mar. 4.—The order of Secretary Clinton for the removal of such aliens and anarchists as the law can reach will be enforced promptly, it was learned today by federal authorities working in harmony with the national plan. The commissioners of immigration, Washington, are keenly alive to the situation, and are taking steps to see to it that what is expected of them. United States District Attorney Stinson said tonight that the order had not been brought to his attention as yet, but intimated that no time would be lost in carrying it out in accordance with the instructions of the department.

It is known that conferences between federal authorities will be held tomorrow and it is understood that a representative of the service will confer with Commissioner Birmingham and a plan of action be mapped out.

Despite denials justified by the secret nature of the work it is known that a systematic search for persons suspected of anarchist sympathies has been quietly waged in this city for some time.

Threatening of Archbishop Farley.

A report that Archbishop Farley, head of the Catholic church in New York, has been threatened by anarchists, reached Commissioner Birmingham today, but he said nothing about it later. The archbishop's subordinates, however, have been in communication with him, and in an effort to hunt down the author.

"The only foundation for the story received from the archbishop is that Archbishop Farley is an anonymous letter received at police headquarters as well as from other sources, and the names of other prominent men were mentioned. This was a typical letter, and the author was paid to it. Every prominent man receives scores of such letters, and if no one in the community of recipients would never have any peace of mind."

Concerning the recent assignment of additional police to the financial district, the commissioner said: "The forces of the police are sufficient to handle all the anarchist trouble, and we will see that a very few come to the city."

To the question whether he had received any threatening letters himself, he said: "I have not, but one of my deputies has."

"He was able to say what deputy he received. Farley was out of town today, but was expected to return home late tonight."

No Eastern Connection.

Policeman Birmingham tonight said that there was no evidence that the western anarchists had eastern connections.

"Since the murder of Father Lee," he said, "and in connection with that crime, there has been a demand by the Chief of Police Shippy of Chicago, nothing has occurred here to indicate that there is any connection with any New York connections, or that prominent men here are likely of such."

His Majesty Will Holiday for a Month.

London, March 4.—King Edward, who is ill, will leave London to-morrow for a month's holiday on the continent. He paid a long visit this afternoon to Premier Campbell-Brown at his residence, which is located near the New York social season. The beautiful old church was crowded with members of the diplomatic corps, who had gathered in the sick room because the premier had gained slightly since yesterday. His health had affected his weak heart, and he is making slow progress towards recovery.

Parliament will be asked to appropriate the sum of \$500,000 for general relief as well as improvement work in Morocco.

ATTACK ON B.C. JUDICIARY.

Presbyterian Divine Deplores Conditions in Coast Province.

Vancouver, B.C., March 4.—Rev. Dr. Fraser, pastor of the First Presbyterian Church, has been invited to speak at the Presbyterian meeting today by making charges against the government of the West. While he is in British Columbia is a self-respecting judiciary, Even patrollers will be held responsible for their conviction, because it will be upheld by a higher bench on a technicality. Fair trials are not always received as pending an appeal. The did not leave the city, but returned to their former life and the conditions are not improved as ever. The high and strong claim that British Columbia should be open to such development of an important case here, the judge fell asleep on the bench, and the court adjourned for a few days. There is no one missing in the court to effect reforms.

DOUKHOBOR FANATICISM.

Investigate Reasons That They Exist. No Care of Health.

Fort William, Ont., March 4.—In the interests of the health of a Doukhobor man, the medical jurymen decided to investigate the house where the death occurred. Accordingly, nine jurymen adjured the police to search the house for women and children naked, lying promiscuously in a bed. Many of the Doukhobors who had come to the city for the fair had been staying in the hotel in the hope of getting to take the corps to the burial, but the Doukhobors had to leave the city. No attempt at burial would have been made.

Making Good the Shortage.

Toronto, March 4.—A shortage of \$4,500 in the waterfalls receiving branch of the Bank of Canada has been attributed to his post, sacrificing his salary, setting his home and giving up a job in the state of affairs in the water revenue department of the city treasury. George, the man who disappeared a couple of years ago from the Bank of Yarmouth case was absent through illness on the continent.

WITH THE FARMERS

DAIRYING IN THE WEST.

Ottawa, Ont., March 4.—J. A. Rudnick, dairy and cold storage manager, says that there is no market likelihood of there being a material increase in the price of butter. Butter available for export in the near future. Of the situation in Western Canada he says that the market is good in Northern Alberta, which is the last of all the western provinces to engage in the dairy business. There are 11 creameries and eight cheese factories in that province, and the number is increasing. In the case of the provinces of Saskatchewan there are six creameries, but no cheese factories. The creameries are in the more populated provinces in the prairie provinces, but there is a large quantity of butter made in the smaller communities, and the future will see a considerable stimulus given to the creamery business.

There is a revival of the interest in the dairy industry in Manitoba. The Manitoba Farmers' Association, the organization of the dairy industry in Manitoba was recently sold to the corporation, which will now be the producer and the future will have the effect of discouraging farmers, who are organized but who have not been organized along lines which are most applicable to western conditions and consider the needs of the trade in the west.

In British Columbia there are 16 creameries in operation, a sound, healthy basis is established on a sound, healthy basis. The combined output of the creameries and cheese factories of the western provinces is not sufficient to meet the demands of the local market, including the sale of butter to the small communities shipped to the Yukon and the Orient. The result is that stocks in Eastern Canada have been drawn down to support the demands of the trade in the west.
